The following is an examiner's statement of reasons for allowance: The only references which disclose an electrode which would have the porous structure resulting from etching and anodizing have been removed due to applicant's earlier filing date.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Klitsner *et al.* (US 2002/0122972) is the pre-grant publication arising from the parent of the present application.
